Gary

Can you do a quick write up from your notes that summarizes the next steps we re-capped at the end of our meeting yesterday?

thx

Carlos,

Below are highlights from the meeting held at the TCEQ Austin office on 1/6/2010 regarding the Gulfco SLERA:

1. The Gulfco PRPs revised the SLERA, incorporating most of the EPA/TCEQ/Trustee comments, with the principle exception that performance of ecological sampling and a BERA were not included.
2. The Gulfco PRPs proposed exploring work to

excavate/cover the ecological hot-spots to cut the ecological pathways as an alternative to performing the ecological sampling & BERA.

3. The PRPs also proposed exploring the development of a wetland improvement project and placing institutional controls for protection of the wetland.

The Gulfco Site Team will meet Monday afternoon to discuss this, plus the site scheduling.

Regards,

Gary Miller, P.E.
